

ODIN-X HELICOPTER UAS SYSTEM

Characteristics

- Applications: Mapping, Photography and aerial surveillance EO/IR
- Size: 1850 x 600 x 600 mm
- Span: 2680 mm
- Main Rotor Diameter: 2410 mm
- Empty Weight: 24.5 KGS
- Max. Takeoff Weight: 44.5 KGS
- Payload: 20 KGS
- Engine Type: Piston Engine
- Power Type: Gasoline
- Engine Capacity: 126 CC
- Engine Power: 9.5 KW
- Power Supply: 180 W generator
- Endurance Time: 120 minutes
- Lift Limit: 3200 Meters
- Wind Resistance Rating: 6 Level

Description

ODIN-X Is one of the most reliable helicopter UAS systems on the market it has a large payload in a large operating time to ensure the success of your mission, the 120 minutes endurance outdoes all the other competitors in the market.
